

Becoming an admin

There are two ways in — as the organisation's first admin, or invited by an existing one. Both land in exactly the same place.

TWO ENTRY POINTS, ONE SHARED PATH

The admin path, start to first login

No password is ever set on someone else's behalf — an invited admin creates their own, the same as the org's first admin does on `/setup`.

Worth remembering

- There is no limit on how many admins an organisation can have.
- The admin tour can be replayed any time from **Account** → **Replay Tour** — it isn't a one-time-only walkthrough.
- Admins are drivers too — the same Scan Vehicle / My Trips tools drivers use are available from the admin navigation.
