

Becoming a driver

Drivers only ever come in one way — invited by an admin. From there it's a straight line to your first trip.

SEVEN STEPS, INVITE TO FIRST TRIP

The driver path, start to first login

Every driver is invited the same way, whether added on their own or as part of a bulk batch of drivers.

Worth remembering

- Only an admin can add a driver — there's no self-serve driver sign-up.
- Push notifications on iPhone only work once the app is installed to the Home Screen — a regular browser tab can't receive them.
- The driver tour can be replayed any time from **Account → RePlay Tour**.
